

ABDULLOH ORTIQOV

I'm Abdulloh Ortiqov, a Full-Stack Developer specializing in building high-performance web applications and scalable solutions. I have a strong focus on modern JavaScript frameworks, backend services, and real-time systems. I'm driven by clean architecture, efficient code, and creating meaningful user experiences.

EDUCATION

Toshkent xalqaro moliyaviy boshqaruv va texnologiyalar universiteti

Bachelor of Science in Computer Science, 2023-2028

- Full-Stack Developer Intern at Tech Company
- Member of University Coding Club
- Volunteer Developer for Nonprofit Organization

SKILLS

- JavaScript
- TypeScript
- React
- Node.js
- Git
- REST APIs
- PostgreSQL

HIGHLIGHTED PROJECTS

Furniture E-commerce Platform — [Live Demo](#)

Built scalable platform with cart and order management using React + Redux Toolkit (frontend) and Node.js + PostgreSQL (backend). Designed responsive UI/UX.

Real-Time Chat Application — [Live Demo](#)

Real-time messaging with authentication and private rooms using Socket.io and Node.js.

AI Teach Atelier — [Live Demo](#)

AI Teach Atelier is a full-stack AI learning platform for coding practice. It combines AI-generated programming challenges, an in-browser coding workspace, code execution and judging, and a persistent AI chat assistant into a single workflow. Users can sign up, generate unique problems by language and difficulty, solve them in the browser, review submissions, and chat with Friday AI for guidance.
